

HOME PAGE

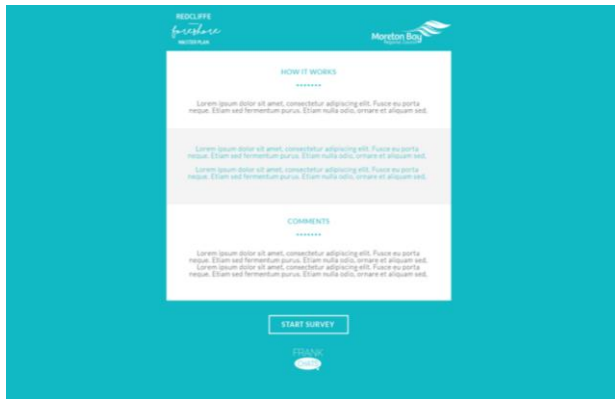

As this is the Frank Chats homepage it should be monochrome. Could we put a background image rather than the colour - attached.. and can we put the logo and text in a frame - see example attached.

REDCLIFFE HOME PAGE

I think this layout is fine. Can you make the frank chats logo bigger?

HOW IT WORKS PAGE

This layout is fine - can you make the frank chats logo slightly bigger?

SURVEY QUESTION PAGE

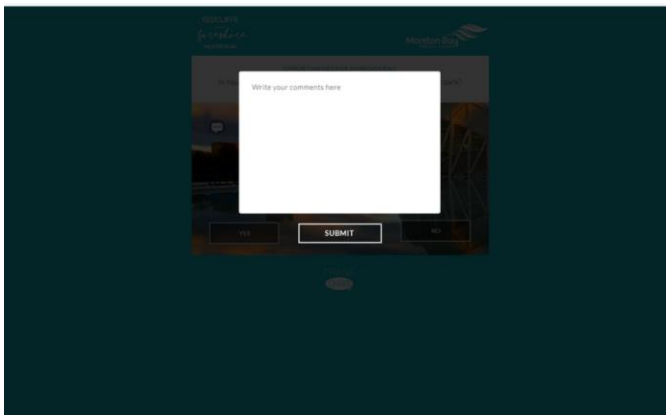

Can we make a second text box to separate the questions... see attached example. Can we make the frank chats logo bigger.

The YES/NO doesn't stand out enough. In an ideal world we would love to have on the sides as speech bubbles (like the frank chats logo) - is this doable? If not can we move them to the sides and make more prominent?

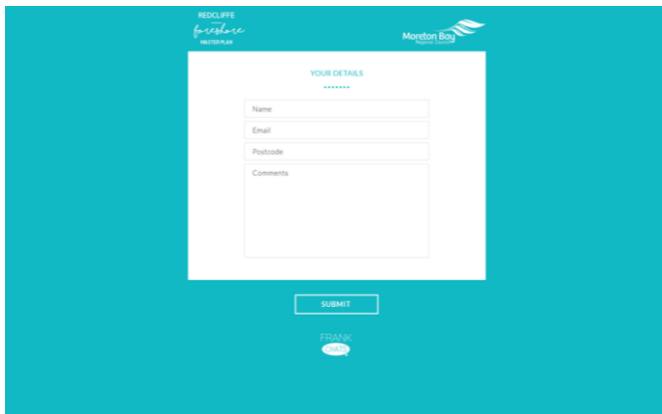

Can we make the 'comment' icon to the one attached - is the same as the frank chats logo

COMMENT PAGE

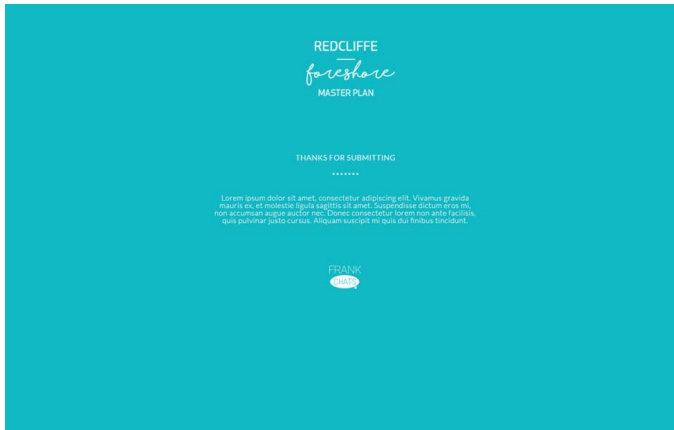

This layout is fine.

CONTACT DETAILS PAGE

This layout is fine. Can we make the frank chats logo slightly bigger? can we make these fields non-compulsory to fill out?

THANK YOU PAGE

This layout is fine.
